The fees imposed by this Resolution are in addition to any fees imposed by the Lancaster County Planning Commission pursuant to Section 502 of the Pennsylvania Municipalities Planning Code for its review of plans or by any municipal authority or public utility as established by such authority or utility for review of plans showing improvements, extensions, or connections to the authority's or the utility's facilities. All fees and, if required, escrow deposits shall be paid by check or money order drawn to the treasurer of West Donegal Township.

Section 4. Recording Fees. Any costs relating to the reduction of final plans for the purpose of recording the same with the Recorder of Deeds of the County of Lancaster and any re-recording fees shall be paid by the applicant.

Section 5. Calculation of Fee in Lieu of Dedication of Park and Recreation Land. Applicants desiring to pay a fee in lieu of dedication of park and recreation land shall compute the amount of such fees as follows:

- A. The Board of Supervisors, upon consideration of land use values, population densities, average household size, population growth trends, recreational needs of the community and similar factors hereby determines that a fee of One Thousand (\$1,000) Dollars per individual residential lot or individual dwelling unit shall be considered per se an acceptable fee in lieu of dedication in accordance with Section 200-44.B of the Township Subdivision and Land Development Ordinance. A developer who elects to pay a fee in lieu of dedication of park and recreational land and who has determined that the fee of One Thousand (\$1,000) Dollars per individual residential lot or dwelling unit is acceptable shall so notify the Township in writing identifying the plan, the number of individual residential lots and or dwelling units, and the fee in lieu of dedication of land to be paid. The Township will verify the figures in the request.
- B. If a developer desires to have an individual computation of the amount of park and recreational land which must be dedicated in accordance with Section 200-44 of the Township Subdivision and Land Development Ordinance, the developer shall provide the Township with the following information:
- (1) The number and type of dwelling units proposed to be erected, including the number of bedrooms to be located within each dwelling unit.
 - (2) The estimated number of persons who will occupy each dwelling unit.
 - (3) Should the Township disagree with the developer's estimated population per dwelling unit, the developer shall also present the Township with census data and other empirical information concerning household sizes within West Donegal Township and within Lancaster County to enable the Township to verify the accuracy of developer's estimate or to compute a new estimate.

The amount of land to be dedicated shall be computed in accordance with Section 200-44 of Township Subdivision and Land Development Ordinance based upon the estimated population of the proposed development established by the Township utilizing the information provided by the developer. To the extent permitted by law, the property offered for dedication must be dry and of slopes at or below ten percent; must be contiguous; must not be less than one hundred feet in width; must be greater than one acre in size; must not be transected by a road; must contain at least one emergency access; and must not consist of storm water management areas, sidewalks, medians and/or land development guarantees. Recreation areas must be inspected, completed, and dedicated to the Township prior to fifty percent occupancy of the development project.

- C. After the Township and developer have agreed upon the amount of land which developer is required to dedicate to the Township, if the developer desires to pay a fee in lieu of dedication and does not desire to pay the fee established by Section 5.A of this Resolution, the developer shall provide the Township with developer's estimate of the fair market value shall be determined using the following criteria:

- (1) If the developer is the equitable owner of all the land which is included within the proposed development, the developer shall present the Township with a copy of the fully executed agreement of sale. The price per acre contained within such agreement of sale shall be considered the fair market value of the park and recreational land if the developer presents evidence to the satisfaction of the Township that the price has been established by a seller who is not related to the developer, who does not have a business relationship with the developer, and who is not under pressure to sell the land. If the developer cannot present such evidence to the Township, the fair market value shall be determined in accordance with Paragraph (1).
- (2) If the developer is the record owner of all of the land within the development and has acquired all of the land within the development as a single parcel within the past 12 months, then the price per acre actually paid by the developer shall be considered the fair market value per acre of the park and recreational land if the developer presents evidence to the satisfaction of the Township that the price has been established by a seller who is not related to the developer, who does not have a business relationship with the developer, and who is not under pressure to sell the land. If the developer cannot present such evidence to the Township, the fair market value shall be determined in accordance with Paragraph C. The developer shall provide the Township with a copy of the deed and any realty transfer tax statement of value filed with the Recorder of Deeds of Lancaster County, Pennsylvania, demonstrating the price paid for the land within the proposed development.
- (3) If the developer purchased the land within the proposed development in separate, smaller parcels, or if the developer acquired the land within the proposed development more than 12 months prior to the filing of the final plan, the developer shall present the Township with an appraisal, performed by a licensed MAI appraiser, of the entire tract of land being developed. The appraisal shall compute the fair market value as if the developer were to transfer the parcel to a successor developer. The appraisal shall specifically consider the zoning classification of the tract the total land area of the tract, and the intensity of development which is permitted upon the tract by the applicable zoning. The appraisal shall be prepared at developer's expense.
- (4) If the Township in its sole discretion is not satisfied with the information set forth in the appraisal, the developer, at the developer's sole expense, shall provide a second appraisal to the Township which meets the requirements of this Resolution.
- (5) It is the responsibility of the developer to furnish any information which the developer considers pertinent to the determination of the fair market value of the land to the Township.

The Board of Supervisors shall establish the fair market value per acre of the land at a public meeting using the data submitted by the developer in accordance with the requirements of this Section.

Section 6. Payment of Fee in Lieu of Dedication. A developer who elects to pay a fee in lieu of dedication of park and recreational land shall either pay the fee in lieu of dedication in full or post an irrevocable letter of credit for the full amount of the fee in lieu of dedication before the Township will execute the Final Plan to enable its recording. If the developer elects to post an irrevocable letter of credit, the letter of credit shall be in a form acceptable to the Township Solicitor. The developer shall pay the fee in lieu of dedication attributable to each lot or unit of occupancy at the time the developer makes application for a zoning permit or building permit for the lot or unit of occupancy. After the developer has made such application and paid such fee, the developer, not more frequently than monthly, may request that the Board of Supervisors authorize a reduction in the letter of credit for the portion of the fee in lieu of dedication which the developer has paid. Developer shall submit this request in writing not less than ten (10) business days before the meeting of the Board of Supervisors at which developer requests the Board authorize the deduction. The letter of credit to secure payment of fees in lieu of dedication shall be in addition to any other financial security which developer is required to post in connection with developer's subdivision or land development plan.

Section 7. Reimbursement of Costs for Acceptance of Dedication of Park and Recreation Land. If developer shall dedicate park and recreational land to the Township, developer shall, at developer's sole cost and expense, provide the Township with a legal description of the land, a plot plan of the land, and a title search. The Township Solicitor, at developer's cost, will prepare the Deed of Dedication and any necessary mortgage releases or other documents. Developer shall transfer good and marketable title to the park and recreation land to the Township. Developer's financial security shall not be finally released until developer has transferred all park and recreation land to the Township. Developer shall pay all recording costs and other incidental costs associated with the transfer and shall, if requested by the Township, pay any costs necessary to construct and install a sign identifying the land as park and recreation land open to the general public.

Section 8. Reimbursement for Plan and Document Review Expenses. Applicants shall reimburse the Township for all reasonable and necessary charges incurred by the Township's professional consultants, including but not limited to the Township Manager-Engineer, engineering consultants, and the Township Solicitor, for the review and any report or reports to the Township on an applicant's application, plans, supporting data, proposed agreements relating to the maintenance of improvements or open space, financial security, and similar matters if any, in connection with subdivisions and land developments, public street plans, and storm water management applications. Engineer, Township Solicitor, or such other professional consultants. The filing of a plan or application under the West Donegal Township Subdivision and Land Development Ordinance, Storm Water Management Ordinance, Road Ordinance, and/or Section 2317 of the Township Code shall constitute an implied agreement by the applicant to pay such expenses.

Section 9. Reimbursement for Inspection of Improvements when such Inspection is Performed by the Township Manager-Engineer or other Professional Consultant. Developers shall reimburse the Township for all unreasonable and necessary charges incurred by the Township's professional consultants or the Township Manager-Engineer or other Township employees for inspection of the improvements required to be constructed under the Subdivision and Land Development Ordinance or the Storm Water Management Ordinance or the Township Road Ordinance and any report or reports to the Township thereon. Such inspection fees shall be the actual fees charged by the Township Engineer or other professional consultant for the services performed. The present fee schedule of the Township Manager-Engineer and other Township employees is attached hereto as Exhibit "A" and incorporated herein and the fee scheduled of the Township's engineering consultants is attached as Exhibit "C". Such schedules shall be revised from time to time to reflect changes in the rates paid to Township employees or charged to the Township by the Township's engineering consultants.

Section 10. Reimbursement for Inspection of Improvements when such Inspection is Performed by Township Personnel. In some circumstances, inspection of improvements may be performed by personnel employed by the Township. If the inspection is performed by township personnel, developers shall reimburse the Township for all reasonable and necessary charges incurred by the Township for inspection of the improvements required to be constructed under the Storm Water Management Ordinance or the Subdivision and Land Development Ordinance or the Road Ordinance and any report or reports to the township thereon. Then the inspection is performed by township personnel, the fee shall be set forth in Exhibit "A". A minimum charge of one hour per person will be billed for the first hour or any portion thereof. Any time in excess of one (1) hour shall be billed at the same rate on a proportional basis. This charge shall be revised from time to time to reflect changes in the costs to the Township of utilizing its personnel to perform such inspections. The developer shall also reimburse the Township for all mileage reimbursement which the Township may pay to its personnel if such personnel use personal vehicles to travel to and from a development site.

Section 11. Resolution of Fee Disputes. In the event the developer disputes the amount of any plan review or inspection fees or expenses imposed pursuant to Sections 8, 9, or 10 above, the developer shall notify the Township Secretary that such fees are disputed as unreasonable or unnecessary within such time period as may be established in the Pennsylvania Municipalities Planning Code ("MPC"), in which case the Township shall not delay or disapprove a subdivision or land development due to the developer's dispute of the fees. Disputes shall be resolved in accordance with the procedure set forth in Article V of the MPC.

Section 12. Additional Expenses. All expenses incurred by the Township prior to street dedication for the installation, maintenance or operation of street signs, traffic control signs, traffic control lights, street lights and any other signs or lights which are necessitated by the developer's land development or subdivision shall be charged to and paid by the developer. The fees

A minimum charge of one hour per person will be billed for the first hour or any portion thereof. Any time in excess of one (1) hour shall be billed at the same rate on a proportional basis. The actual cost of all supplies and equipment, including signs, poles and other materials shall be paid by the developer. The developer shall also reimburse the Township for all mileage reimbursement which the Township may pay to its personnel if such personnel use personal vehicles to travel to and from a development site.
